

THE 1987 VOLKSWAGEN VANAGON

#### DECADES AGO, VOLKSWAGEN REVOLUTIONIZED THE ENTIRE AUTOMOTIVE INDUSTRY

by creating a new set of driving values which changed forever the way we judge an automobile. This dedication continues to this very day, as our German engineers aspire to design and build products that combine contemporary automotive technology with the classic virtues of durability, reliability and quality. The result is a unique combination of performance and practicality that makes a Volkswagen one of the outstanding automotive values in the world. To prove it to yourself, test drive the 1987 Vanagon. You'll marvel at its excellent driveability. Only then will you fully understand

what distinguishes a Volkswagen from every other car on the road. Our confidence in our products has led us to provide a Protection Plan that's as simple and straightforward as a Volkswagen itself. Your new Vanagon is protected by a 2-year unlimited mileage limited warranty on the entire vehicle (except tires). And a 6-year limited warranty is provided against corrosion perforation. A nationwide network of authorized Volkswagen dealers stands ready to provide you with quality parts and service to help make your Volkswagen as pleasurable years down the road as it was the first day you owned it.

Throughout the years, Volkswagen ingenuity has taken many forms, but none more versatile than the Vanagon and Camper. The Vanagon GL offers a spaciousness that makes the mini-vans look truly mini.

The Camper is a one-of-a-kind recreational vehicle that acts as a home away from home. And the Vanagon Syncro 4WD and Camper Syncro 4WD feature automatic four-wheel drive for extraordinary traction on a wide variety of driving surfaces.

Rarely has form followed function with such originality. First-time drivers of the Vanagon GL and Camper GL marvel at their excellent performance and ease of handling. This should come as no surprise since they're powered by a 2.1 liter fuel-injected engine linked to a 4-speed transmission. Their performance is achieved by such standard contemporary engineering features as 4-wheel independent suspension, power rack and pinion steering (optional on Camper) and power front disc brakes. The result is a high degree of agility and nimbleness for a van, without having to sacrifice carrying capacity. Once again, our German engineers have built a vehicle with plenty of room for performance, practicality and value.

One of the hallmarks of our Volkswagen engineers is that they always try to make a good thing even better. In the case of the Vanagon GL Syncro 4WD and Camper Syncro 4WD, their technical brilliance has never shined brighter. By adding an automatic four-wheel drive system, they've added a whole new driving dimension.

The four-wheel drive of the Vanagon GL Syncro 4WD and Camper Syncro 4WD is permanent and automatic. It's always there when you need it, engaging smoothly all by itself whenever it senses a difference in speed between the front and rear axles. The Syncro 4WD improves handling in even the foulest weather. Provides greater directional control during cornering. And prevents excessive tire scrub. To help you get the most from the Syncro 4WD, all models feature an extra low gear for better start-up traction on difficult driving surfaces. Larger tires and higher ground clearance. Plus an 18.4 gallon fuel tank. As a result, the Syncro 4WD adds extra confidence to its already long list of driving pleasures.

Normally the rear wheels are the driving force of the vehicle. On a Syncro 4WD, if these wheels begin to lose traction, a special device that acts like an automatically locking differential begins to transmit power to the front wheels. Since the four-wheel drive is constantly in action, the amount of power to the front wheels is determined by particular driving conditions.

\*MSRP. EPA mileage figures on specifications page.

The inside of the Vanagon GL is a large living room on wheels. There's more than enough room to transport seven passengers in glorious comfort, together with an impressive 49.7 cubic feet of cargo space. The rear seat folds down to make storage more convenient. And a wide, sliding side door provides easy access. The Vanagon GL offers more carrying capacity than a mini-van, with more efficiency\* than a maxi-van.

You'd never know the Vanagon GL was such a hard-working van from its richly appointed interior. All seating is upholstered in plush velour and features fold-down, adjustable armrests in the front. The two front positions are also deep-contoured bucket seats. A fully padded dash with an illuminated, lockable glovebox adds safety and convenience. While a front and rear heater with a flow-through system will add warmth to those cold winter mornings. To make the task of driving even more pleasant, the Vanagon GL offers such standard convenience features as a rear window defroster. Intermittent wipers. Tinted glass. And see-through front head rests. There are also sliding side windows to let fresh air in, and wall-to-wall picture windows give everyone a clear view out.

The Camper is the kind of vehicle you'll use all the time. During the week, it acts as a spacious family van. On weekends, it'll take you to camping grounds in the middle of nowhere. But even though you've left home, you don't have to leave the comforts of home. Because the Camper is furnished with a thoughtful array of household amenities. So when you've had enough of the great outdoors, you can come inside and enjoy the luxury of the great indoors.

No matter how far from home, the Camper makes the living easy. It puts at your fingertips a full range of domestic facilities to help make your stay in the wild as civilized as possible. The base Camper provides a unique pop-top roof with a cheerful skylight. Two double-bedded sleeping areas. A rear facing seat behind the driver. A clothes locker and storage cabinets. Folding side table. And removable refrigerator. For even more gracious living, the Camper GL includes a kitchenette complete with sink, stove and refrigerator. And after you've prepared your favorite meal, you can enjoy it in the comfort of the front bucket seats which swivel to face swing-out tables. With the Camper GL, you'll be hard-pressed to think of many other features that'll make you feel more at home.

Since driving habits are as individual as you are, a complete selection of options and dealer installed accessories is available to help you equip your new Vanagon GL to suit your personal preferences. Optional equipment pictured above includes: a rear window wiper/washer with intermittent feature, power mirrors, alloy wheels, power windows, sunroof (N/A on Camper models), AM/FM cassette stereo radio with anti-theft feature and Supermax differential lock knob.
